25<sup>th</sup> November 2003

## A FRESH FUTURE

The Vision 21 Malvern Hills Partnership will breathe new life into the Community Strategy for the District with a conference aptly named "The Way Forward". Taking place on 1<sup>st</sup> December 2003, the event organisers, the Vision 21 Working Group are confident it will be a big success.

Nearly 40 organisations will be attending the daylong event kindly hosted by QinetiQ, to discuss the future work and priorities of the Partnership.

**Paul Walker, Managing Director of Malvern Instruments and Chair of the Vision 21 Partnership said.** "The Partnership is a collective of local organisations from the public, voluntary and private sector who are committed to working together to improve the quality of life in the district as outlined in the Community Strategy."

The Community Strategy for the Malvern Hills District was launched after extensive public consultation in 2002 and this event will be an excellent opportunity to re-engage and energise the joint work of the partners.

**Cllr. Sue Adeney, Chair of the Vision 21 Working Group commented;** "The group have been working hard over the last 9 months. However, we are keen to engage with the entire partnership to assess our priorities and to review the work that we have been doing towards the overall Vision for the District.

"We are really keen to narrow down and gain a specific focus for the coming year. I hope that this event will rejuvenate and push forward the impact and influence we can have, making the Malvern Hills District a better place to live, work and enjoy."

The Conference will also be used to launch the brand new website ([www.vision21.malvernhills.gov.uk/default.htm](http://www.vision21.malvernhills.gov.uk/default.htm)) that Malvern Hills District Council in conjunction with the Working Group have put together on behalf of the Partnership. The Working Group will also be looking into ways of promoting use of the website for partners and the wider community.
